- 1 Wireless printing requires a working Ethernet network with wireless 802.11b/g or n capability. Wireless performance may vary based on terrain and distance between the printer and wireless network clients.
- 2 For network users, Auto Scan Mode is only available when scanning at a computer using MP Navigator EX software and selecting the 1-click feature then "Save to PC."
- 3 The Public Switched Telephone Network currently supports fax modem speeds of 28.8 Kbps or lower, depending on telephone line conditions. Sending and receiving fax machines need to conform to ITU-T v.34 guidelines.
- 4 Page count is based on ITU-T No.1 chart or Canon FAX Standard Chart No.1.
- 5 "Full HD Movie Print" allows printing from HD or Full HD "MOV" movie files created by Canon EOS Digital SLR or PowerShot digital cameras. From PC, or Mac with Intel® processor. Print quality is determined by video resolution. Function does not upscale video resolution. Requires Canon ZoomBrowser EX 6.5 or later, or Canon ImageBrowser 6.5 or later.
- 6 Specifications are subject to change without notice. All output images are simulated.
- 7 Supported paper types for borderless printing are as follows: Photo Paper Pro Platinum, Photo Paper Plus Glossy II, Photo Paper Plus Semi-gloss, Photo Paper Glossy and Matte Photo Paper.
- 8 Requires Canon Easy-PhotoPrint for iPhone app, available for free on the App Store, or Canon Easy-PhotoPrint for Android app available for free in the Android Market. Compatible with iPhone 3G, 3GS, 4, iPad, iPod touch and Android devices running Android OS 1.6 or later.
- 9 Photo print speeds are based on the standard mode driver setting using photo test pattern(s) and select Canon Photo Paper. Print speed is measured as soon as first page begins to feed into printer and will vary depending on system configuration, interface, software, document complexity, print mode, types of paper used and page coverage. See www.usa.canon.com/printspeed for additional information.
- 10 ISO/IEC 24734, 24735 define the default print and copy speed measurement methods. Print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734, excluding time to print the first set. Copy speed is the average of FCOT, ISO/IEC 24735 Annex D. ADF copy speed is the average of ESAT in General Performance Test for the default simplex mode, ISO/IEC 24735, excluding time to copy the first set. See www.usa.canon.com/ipm for additional details.
- 11 Resolution may vary based on printer driver setting. Color ink droplets can be placed with a horizontal pitch of 1/4800 inch at minimum.
- 12 Black & white document fax transmission speed is based on default setting using ITU-T No.1 chart. Color document fax transmission speed is based on default setting using Canon Color Fax Test Sheet. Actual transmission speed vary depending on document complexity, fax setting at receiving end, and line conditions etc.
- 13 Requires mobile phone equipped with PictBridge technology and a USB cable.
- 14 Requires mobile phone (or other device) equipped with Bluetooth v2.0 technology and optional Canon Bluetooth Unit BU-30. Bluetooth operation depends on the device and software version used. Operating distance is approx. 10 meters but may vary due to obstacles, radio signals, locations where radio interference occurs, magnetic fields from microwave ovens, device sensitivity and/or antenna performance.
- 15 System requirements vary by application.
- 16 Warranty programs are subject to certain conditions and restrictions. See www.canon.com/support for details.
